

## Windows 98 Tricks!

I thought it would be one of the last times to give you a few Windows 98 tips and tricks. In the future I will probably stick to just Windows XP tips.

### Change the size of Icons on your Desktop

To change the size of the Icons on the Desktop:

- Right-click on the Desktop
- Choose PROPERTIES from the context menu. On the APPEARANCE tab look in the Item list box. Once you find Icon you can choose the size from the Size box.
- To view hit the Apply button, once you are satisfied hit OK.

### Change Icon spacing on your Desktop

To Change the Icon spacing on your Desktop:

- Right-click on the desktop
- Choose PROPERTIES popup menu. On the APPEARANCE tab look in the Item list box. Once you find Icon Spacing (Horizontal) and Icon Spacing (Vertical) you can choose different values.
- Once you are satisfied hit OK.
- Press F5 to Refresh the Desktop

### Print Screen with Windows 98

When you press the PRINT SCREEN button on your keyboard while you're in Windows 98, your screen is copied to the clipboard. Now start the Paint program (click START > PROGRAMS > ACCESSORIES > PAINT) and from the EDIT menu select PASTE. Now you can print your screen.

If you only want to print an open window, and not the whole screen, hit Alt+Print Screen.

### Windows 98 Easter Egg; the easy way

You might have heard about the Windows 98 Easter Egg; it requires you to click on several places on the Regional Settings applet in Control Panel; quite a hard thing to do.

Well, here's the easy way to get to the Easter Egg:

- Right-click an empty space on your Desktop, and select NEW > SHORTCUT from the menu
- Copy the line below in the Command line field:  
"C:\WINDOWS\Application Data\Microsoft\WELCOME\WELDATA.EXE"  
You\_are\_a\_real\_rascal"
- Top of Form
- Bottom of Form
- Press Finish
- Right-click this new shortcut, and from the menu choose PROPERTIES.
- In the Run field, select Minimized. Also make sure that the Start in field shows C:\WINDOWS\Application Data\Microsoft\WELCOME
